

5" (127 mm)

M81-SVHS-SVHS-Type S-Video Connector

Installation

The S-video connector is preassembled, so no assembly is required. Simply snap connector into faceplate.

Removal

Due to size of S-video connector within adapter, the connector body must be removed from adapter before connector assembly can be removed from faceplate, once installed. If connector assembly does need to be removed, disassemble connector as shown on reverse side of this card, then remove adapter. Reassemble before reinstalling.

Be sure of connector location before installing.
