

HomeConnect™ Solutions

Quality, Technology & Innovation

Premium Subscriber Drop Products

- CommScope proudly offers a family of technically advanced subscriber amplifiers, passives, intelligent taps, groundblocks and locking terminators
- All products backed by a 5-year warranty and a 30-year history of reliability
- Generous stocking program for immediate delivery of most products

Subscriber Amplifiers –

- Excellent performance & reliability with ultra low-noise signal amplification & 6kV surge protection
- Space saving nano and miniature package
 - Unique positive tilt compensates for higher attenuation at higher frequencies
 - Patent pending Nano Plated Aluminum amplifier and Passive VoIP amplifier preserves lifeline telephony service in the event of power failure
 - Options include: 1, 2, 4 and 8-port configurations; Passive VoIP, two way and return-only amplifiers

Digital Passives – Superior Performance to 1 GHz

- Innovative four-sided center conductor contact provides better performance than alleged "360-degree" designs
- Flat-end ports for proper ground plane match
- Better than 120 dB RFI
- Three layers of protection against corrosion

Interactive Taps – A New Approach, A Better Solution

- Execute services immediately without generating a truck roll
- Select filtering options to manage reverse path noise
 - Compatible with industry standard billing systems
 - Telephone filter for 911 service
 - Favorable payback

Connectors – Locking Terminators, Ground Blocks & F-81s

- Nickel plated brass locking terminator with 35 dB return loss, compatible with Gilbert GTP59
- Industry-leading F-81s and ground blocks with unique, patented ground clamp

*specification subject to change

COMMScope®

COMMSCOPE®

Unparalleled Quality & Innovation

- Every CommScope product feature and detail is manufactured to exacting standards
- Only high quality materials & products manufactured within tight tolerances are worthy of bearing the CommScope name
- With over 2,100 patents, CommScope offers thousands of cable, conduit, components & connectivity options
- Production operations located on 5 continents produce high performance solutions selling into more than 130 countries

AIM® – Smart Inventory Management

- AIM is a collaborative planning, forecasting & supply replenishment tool that adds value by managing inventory more effectively
- Easy to implement, AIM improves inventory turns & reduces costs
- Assures inventory levels of an MSO's most critical stock items are maintained at optimum levels

Exceptional Service

- A solid business partner with an impressive service track record
- Professional account teams aligned for responsive 24/7 services
- A vast network of trained sales associates & distributors expedite purchasing decisions

Cable Transport® – The CATV Industry's Truck Fleet

- Efficiently & affordably delivers or moves inventory
- Impressive on-time delivery performance
- 24-hour emergency disaster recovery response

Reel Recycling – Simple Cost-Savings

- Let CommScope pick up & recycles reels to clear yard space & reduce costs
- Earn credit towards future cable purchase for reels returned in reusable condition
- Reel recycling is a service available to customers in the continental US & Canada. Please contact your customer service representative to schedule a truckload pick-up

Experienced Technical Staff

- On-site technical support coupled with installation/training materials offered in English & Spanish
- Tap into CommScope's deep knowledge base, training & support at no additional cost
- Download a wide array of technical documents, white papers & software online at www.commscope.com

Strong Industry Involvement

- SCTE industry-leading sponsor and standards leader
- Global tradeshow participation
- Active involvement in industry associations worldwide
- Sizable contributions to many industry initiatives
